

Lollipop Tree Two Year Old Program Overview

The primary goal of our Two Year Old Program is to provide a safe, nurturing and stimulating environment for the children in our care. The children learn socialization through cooperative play, sharing, transitioning between activities and using verbalization to obtain wants and needs.

Our fun filled day begins with the teachers welcoming the children into the classroom and getting them involved in an activity. The free play time may consist of using play dough, coloring, cutting, building with blocks, playing with puzzles or small manipulatives, as well as playing pretend. Kids then clean up and go outdoors for 45 minutes of sliding, climbing, playing in the sand, riding bikes or going for a walk to observe the sights and sounds of the world around us.

Each month we have different themes, which our projects are based on. Some of the themes we explore are farm animals, colors, nursery rhymes and seasons. We also talk about holidays such as Halloween, Thanksgiving, Chinese New Year and Mother's Day. The projects themselves may involve painting, gluing or, on occasion, cooking. We end the year with a special unit about Hawaii. Parents are invited to see our cute hula dancers perform in their rooms.

Our fully equipped gym room provides a place for the children to play and socialize while developing their gross motor skills.

All of our two year old children look forward to getting together several times a week to have a sing-a-long and do finger plays. This time allows them to work as a group to develop their memorization skills and their singing voices while showing off their individual talents.

Extra enrichment is given during our monthly specials when trained professionals give special classes in music and gymnastics.

By the end of the school year you will see many skills developed that lay the foundation for their journey ahead.
